

A Message from the Chair

California Democrats are working hard to take advantage of the extraordinary opportunities the 2018 General Election present us, including the opportunity to expand our supermajorities in the Legislature and win our third consecutive clean sweep of statewide contests. We know that our success at the ballot box in November means that California can double down on our progressive, pro-worker, pro-union agenda.

We have had organizers working in targeted areas across the state for more than a year now, and we are significantly expanding our presence statewide in these last months of the campaign. We intend to ensure that the Big Blue Wave reaches every community in California. We know that working people are counting on our efforts, and the efforts of our partners in the labor movement and the progressive community, like never before.

On behalf of 8.4 million registered members of the California Democratic Party, please accept my profound thanks for all you do to advance our Party and our progressive, pro-worker values.
